ROOTS AND GRAINS

AGRIBIZ GHANA LTD.

PUBLIC COMPANY BRIEF | NOVEMBER 2026

Ghanaian roots.
A growing food future.

An integrated cassava-to-gari programme connecting agricultural production, agro-processing and market development in Ghana's Volta Region.

50 acres	4 varieties	2028
Planned gross farm	Selected CRI portfolio	First processing target

THE COMPANY & FLAGSHIP

Roots And Grains Agribiz Ghana Ltd. is developing a cassava-to-gari enterprise centred on Akatsi and Avevie in the Akatsi North District. **R & G Premium Gari** is the flagship product in development.

THREE CONNECTED COMPONENTS

1. **Agricultural production:** planting-material multiplication and the proposed 50-acre farm.
2. **Agro-processing:** technically validated processing, quality systems and traceable batches.
3. **Market development:** packaging, distribution, buyer relationships and cash collection.

THE DEVELOPMENT SEQUENCE

Multiplication began in October 2026. Main-farm establishment is proposed for the 2027 major season. Approximately twelve months to root maturity links harvest and processing targets to 2028. The proposed equipment target is **2.5 tonnes of finished gari per operating day**, subject to commissioning, supply and demand.

PARTNER WITH THE PROGRAMME

We welcome investment discussions, technical assistance, grower relationships, distribution and market-access partnerships. Progress should follow verified land arrangements, crop and process evidence, appropriate approvals and commercial readiness.
